

To the Society of the International Community School in Jordan

As an American living in Jordan for 20 years, I consider Amman my home. I completed my higher education degree in the field of Criminal Justice, conducting research here in Amman. Now the mother of five children, I am a stay at home mom and board member for a non-profit organisation that works with special needs children. In addition to my advisory duties, I am in charge of the organisation's financial operations.

This is our family's fourth year at the International Community School. I have two children at ICS, Saleem, Y8 and Yasmeen, Y5. It has been a privilege and great learning experience to have served on the School Management Committee for the last two years.

It would be an honour to serve again on the SMC. I am excited for all of the positive changes taking place at our lovely school and would love to continue to support and shape future developments.

Honie Haddad
